"Highly Qualified" Teacher Forms

OVERVIEW

The **No Child Left Behind Act of 2001** (NCLB) represents education reform designed to improve student achievement and change the culture of America's schools.

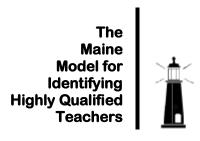

A major objective of the **No Child Left Behind Act** (NCLB) is to ensure high quality teachers for all students, regardless of race, ethnicity, or income because a well-prepared teacher is vitally important to a child's education. NCLB places major emphasis upon teacher quality as a factor in improving achievement for all students. This emphasis is supported by extensive research showing that teachers' mastery of the academic content they teach is a significant factor in raising levels of student achievement.

In recognition of the importance of having effective teachers, the **No Child Left Behind Act** includes provisions stating that all Kindergarten-Grade 12 teachers in core academic subjects must be "Highly Qualified" by the end of the 2005-2006 (August 31, 2006) school year. It also requires that new teachers in Title I programs or schools be "Highly Qualified" immediately.

Note: All teachers hired after the first day of the 2002-2003 school year in Title I schools or programs must be "Highly Qualified." However, in Title I targeted assistance schools, only those teachers paid with Title I funds need to be "Highly Qualified" immediately. .

"Highly Qualified" is a specific term defined by *NCLB*. The law outlines a list of minimum requirements related to content knowledge that a "Highly Qualified" teacher would meet. However, recognizing the importance of state and local control of education, the law provides the flexibility for each state to develop a definition of "Highly Qualified" that is consistent with *NCLB* as well as with the unique needs of each state.

This document contains the information and forms administrators and teachers will use to determine whether teachers satisfy the definition of "Highly Qualified" based on the federal criteria for the teaching assignment.

IMPLEMENTATION: STATE AND DISTRICT ROLES

1. The Maine Department of Education's role in implementing the federal *NCLB* requirement is to provide districts with the orientation, information, training and support needed to support schools in completing "Highly Qualified" Teacher identification process; to create a state profile using the "Highly Qualified" Teacher data; and to determine the Annual Yearly Progress goals for increasing the percentage of classes taught by "Highly Qualified" Teachers.

The federal law requires that states monitor district progress toward meeting state objectives for increasing teacher quality within districts and their schools. If a district fails for two consecutive years to make progress toward meeting the annual objectives, then that district must develop an improvement plan. The improvement plan must be designed to help the district meet the state's annual measurable objectives for increasing the percentage of "Highly Qualified" teachers and must address issues that prevented the district from meeting those objectives.

An *NCLB* "Highly Qualified" Teacher tool kit of materials is available on the Department of Education's web site (http://www.state.me.us/education). Included in this tool kit:

- **a.** Reproducible PowerPoint presentations, documents, materials, forms, and "Frequently Asked Questions."
- **b.** Reproducible HOUSSE Rubric, instructions for completing the HOUSSE, and HOUSSE Frequently Asked Questions.
- **c.** Sample letters to parents for use and modification as deemed appropriate.
- **d.** Tool Kit for teachers.
- **e.** U.S. Department of Education Guidance Documents
- **2.** The district's role in implementation of the federal requirement is to provide schools and teachers with the orientation, information, in-service and support

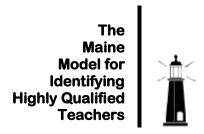

The Maine Model for Identifying Highly Qualified Teachers

needed to complete the "Highly Qualified" Teacher identification process including, where necessary, the Maine HOUSSE Standard: Content Knowledge Rubric and to collect and maintain the "Highly Qualified" Teacher identification data at the district or building level.

3. Schools that receive Title I funding (including funds used for before/after school programs) must comply with the parent notification requirements under **No Child Left Behind**. At the beginning of each school year, schools receiving Title I funds must notify all parents of their right to inquire about the qualifications of their child's teacher(s).

In addition, schools receiving Title I funds must notify parents if any of their child's teachers have not yet satisfied the federal definition of a "Highly Qualified" Teacher. This notification must be sent to any parent whose child has been instructed for four or more weeks by a teacher who has not yet satisfied the definition of a "Highly Qualified" Teacher. Parent notification requirements apply to the entire school – whether or not the teacher is paid in whole or in part by Title I funds or teachers within a targeted assistance program.

GENERAL INFORMATION "HIGHLY QUALIFIED" TEACHERS

Under NCLB a "Highly Qualified" teacher meets ALL of the following three criteria:

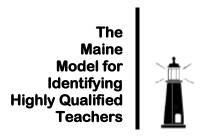

- Holds a Bachelor's degree, and
- Holds full state certification as defined by the state, and
- Demonstrates competency, as defined by the state, in each core academic subject he or she teaches.

A "Highly Qualified" Maine teacher is one who:

- Holds a Bachelor's degree, and
- Holds full state certification, and
- Is competent to teach the subject(s) taught as demonstrated by:
 - o Having a major in the content (24 semester hours), or
 - o Having coursework equivalent to a major in the content (24 semester hours), or
 - o Having an advanced degree in the content, or
 - o Being National Board certified in the content, or
 - o Having a passing score on a content test (PRAXIS II), or
 - Achievement of the Maine HOUSSE standard.

Which teachers must document that they are "Highly Qualified"?

Public school teachers with primary responsibility for direct instruction in one or more of the core academic content areas are required to demonstrate that they satisfy the federal definition of a "Highly Qualified" teacher. This includes elementary generalists who teach all subjects to a particular grade/class, special education teachers who provide direct instruction in one or more content areas, middle- and secondary-level content area instructors.

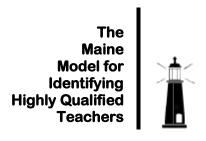

This also includes specialists who teach one or more core subjects, teachers of English as a second language (ESL), bilingual teachers, and alternative education teachers who provide direct instruction in core academic content.

NCLB identifies the following subjects as core academic content areas:

- English, Reading, or Language Arts
- Social Studies:
 - o Civics/Government
 - o Economics
 - o History
 - o **Geography**
- Foreign Languages
- Mathematics
- Science:
 - o General
 - o Life
 - o Physical
- The Arts

NCLB does not recognize Elementary Curriculum as one discrete core academic subject. Teachers of Elementary Curriculum must verify competency across English, Reading or Language Arts, Mathematics, Science, and Social Studies.

Note: Elementary Specialists, who teach only one subject, e.g. reading or mathematics, must verify content competency in the one content area only.

TIME FRAME FOR COMPLIANCE WITH THE "HIGHLY QUALIFIED" TEACHER REQUIREMENT

Time Frame I:

Title I Schools and Programs: According to federal requirements, teachers of core academic subjects who were hired after the first day of the 2002-2003 school year and who are teaching in programs supported with Title I funds (school-wide or targeted assistance) must be "Highly Qualified" at the time of hire. This requirement that a teacher have a bachelor's degree, be fully certified, and have already demonstrated subject-matter competency in each subject the teacher teaches through ways the law permits, applies to teachers who are new to the profession.

Teachers who were working in programs supported with Title I funds (school-wide or targeted assistance) prior to the start of the 2002-2003 school year and teachers who are transferring to such programs from within their district will have until the end of the 2005-2006 school year (August 31, 2006) to satisfy the federal definition of a "Highly Qualified" Teacher.

Time Frame II:

Non-Title I Schools and Programs: All teachers of core academic subjects who are teaching in programs NOT supported with Title I funds must be "Highly Qualified" by the end of the 2005-2006 school year (August 31, 2006).

Time Frame III:

Rural Districts: Teachers in eligible, small rural districts who are "Highly Qualified" in at least one subject will have an additional year to become "Highly Qualified" in the additional subjects they teach. They must also be provided professional development, intense supervision, or structured mentoring to become "Highly Qualified" in those additional subjects by the end of the 2006-2007 school year (August 31, 2007).

What are the basic requirements in the federal law for "Highly Qualified" Teachers in Title I schools and programs vs. "Highly Qualified" Teachers in non-Title I schools and programs?

Title I Schools and Programs

<u>New Elementary Teachers</u>: To satisfy the federal definition of a "Highly Qualified" Teacher, elementary teachers who are new to the profession, (in their first year of teaching) must satisfy the federal definition of "Highly Qualified" Teacher by:

- Holding at least a bachelor's degree from a regionally accredited institution of higher education, *and*
- Hold a full Maine teaching certificate, and
- Pass a rigorous state content test (e.g. Praxis II: Elementary Content Assessment).

Newly Hired and Veteran Elementary Teachers: Newly hired teachers with experience (not new to the profession) and veteran elementary teachers who have been working in schools supported with Title I funds prior to the 2002-2003 school year have until August 31, 2006, to satisfy the definition of a "Highly Qualified" Teacher, using the criteria listed above or by fulfilling Option #1 or Option #2, the Maine HOUSSE Standard.

<u>New Middle and Secondary Teachers</u>: To satisfy the federal definition of a "Highly Qualified" Teacher, middle and secondary teachers who are new to the profession (in their first year of teaching) must satisfy the federal definition of "Highly Qualified" Teacher by:

- Holding at least a bachelor's degree from a regionally accredited institution of higher education, and
- Holding a full Maine teaching certificate, and

The Maine Model for Identifying Highly Qualified Teachers

 Holding an undergraduate major, or coursework equivalent to an undergraduate major, or a graduate degree, or National Board Certification, or pass a rigorous state content test (e.g., Praxis II Content Knowledge Assessment) for each core academic subject taught.

NOTE: Maine is challenged by the requirement to assure that ALL new Title I teachers satisfy the federal definition of "Highly Qualified" teacher upon hire. Maine does not yet have a state-adopted content test. In April of 2004, Maine amended certification requirements to include a content knowledge assessment (Praxis II) for initial certification in core subjects. Since the test will not be available until September 2005, Maine is required to provide assurances that steps are being taken in the interim to provide immediate support to new teachers in order for them to satisfy the federal requirement as soon as possible. This means that all new Title I teachers who do not satisfy the "Highly Qualified" definition must: [1] be identified, and [2] develop an action plan, and [3] be provided assurances by the school or school district that they will be provided the necessary support that will enable them to become "Highly Qualified" as soon as possible.

Newly Hired and Veteran Middle and Secondary Teachers: Newly hired teachers with experience (not new to the profession) and veteran middle and secondary teachers who have been working in schools supported with Title I funds prior to the 2002-2003 school year and middle and secondary teachers who are transferring to Title I schools within their districts have until the end of the 2005-2006 (August 31, 2006) school year to satisfy the definition of a "Highly Qualified" Teacher, using the criteria listed above (Option #1) or by fulfilling the Maine HOUSSE Standard (Option #2).

Non-Title I Schools

New, newly hired, and veteran teachers: To satisfy the federal definition of a "Highly Qualified" Teacher, elementary, middle, and secondary teachers must meet the federal definition of "Highly Qualified" Teacher by the end of the 2005-2006 (August 31, 2006)school year by Option #1 **OR** Option #2 HOUSSE.

LEA Models for Identifying "Highly Qualified" Teachers

School districts are required to identify the teachers who meet the "Highly Qualified" definition. In administering this requirement, schools have the flexibility to design a local model that most effectively and efficiently meets their needs and serves their staff. Districts may design an administrative process that:

• Places responsibility for administration of the "Highly Qualified" teacher identification process at the building level, designating the building principal in each school the "Highly Qualified Teacher" ("HQT") Official.

10

 Delegates the "Highly Qualified" teacher identification process to the school or district teacher support team, designating the team or team chair as the "HQT" Official(s).

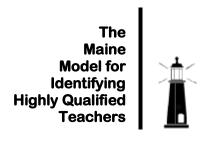

or

 Creates a NCLB coordinator position or coordinating team to manage the school or district identification process

or

• Another structure this is suitable to a district's operations.

The Department of Education will provide technical assistance to assist districts in complying with the "Highly Qualified" teacher provision of *NCLB*.

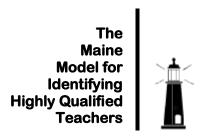

IDENTIFYING THE "HIGHLY QUALIFIED" TEACHER

Maine has some of the most qualified teachers in the country, and we are extremely proud of our teachers. The Maine Department of Education and all of Maine's schools and school districts work very hard to assure that every class has a teacher with the appropriate qualifications for his or her teaching assignment.

Under **No Child Left Behind**, states are required to identify K-12 teachers who satisfy the federal "Highly Qualified" definition. Most Maine teachers already meet the federal definition if they meet these three federal criteria:

- 1. Have a Bachelor's Degree, and
- 2. Hold full State of Maine certification (provisional, or professional, or master), and
- **3.** Demonstrate competency to teach the core academic subject(s) they are assigned to teach in any **ONE** of the following ways:
 - a. Have a major in the content taught (24 semester hours); or
 - **b.** Have documented coursework equivalent to a major in the content taught (24 semester hours), **or**
 - **c.** Hold an advanced degree in the content taught, **or**
 - d. Hold National Board Certification in the content taught, or
 - **e.** Have a passing score on the appropriate PRAXIS II content knowledge test.

The identification process is a self-reporting process, whereby teachers may select how they will verify their competency (content knowledge) for the core academic subject(s) they are assigned to teach. Current teachers who can document that they meet all three of the above criteria are "Highly Qualified."

1. Teachers who satisfy the federal definition of "Highly Qualified" will:

Step 1: Complete the "Highly Qualified" Teacher Identification Form.

Step 2: Complete the "*Highly Qualified" Statement of Assurance* and attach supporting documentation.

Step 3: Complete the "Highly Qualified" Teacher Verification Form

Note: Veteran teachers who do not satisfy the federal definition have until August 31, 2006, to do so.

2. For Teachers who

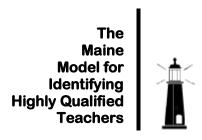

- a. Meet Criteria #1 (hold a Bachelor's Degree) AND
- **b.** Meet Criteria #2 (hold full Maine certification) **BUT**
- **c. DO NOT meet Criteria #3** (content knowledge competency for teaching assignment(s)

there are two (2) options for meeting Criteria #3.

OPTION #1

There are multiple ways for experienced teachers to demonstrate subject matter competency. Through OPTION #1, a teacher must select ONE of the following to satisfy Criteria #3:

- Take additional courses to reach the equivalent of a major in the subject assigned to teach (24 credit hours), OR
- Complete an advanced degree, OR
- Achieve National Board Certification, OR
- Achieve a passing score on the PRAXIS II content knowledge test when it becomes available in 2005.

If Option #1 is selected:

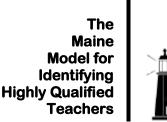

- **Step 1:** Complete the "Highly Qualified" Teacher Identification Form.
- **Step 2:** Complete the HOUSSE Rubric. You may find that you easily meet Criteria #3 through the HOUSSE. If you do, you are "Highly Qualified" -- go to step 3 and step 6 (skip steps 4 and 5).
- **Step 3:** Complete the "Highly Qualified" Statement of Assurance Form and attach supporting documentation.
- **Step 4:** If you **do not** meet Criteria #3 through the HOUSSE, complete the "Highly Qualified" Teacher Action Statement Form, and attach this form to the Statement of Assurance Form. Indicate that you have selected OPTION #1, and identify the route you have selected to meet criteria #3.
- **Step 5:** Review your Action Statement with the school or district "Highly Review your *Teacher Action Statement* with the school or district "Highly Qualified" Teacher" (HQT) official annually, until you satisfy the definition of "Highly Qualified" Teacher by August 31, 2006.
- **Step 6:** Complete the "Highly Qualified" Teacher Verification Form when you satisfy the definition of "Highly Qualified" teacher.

OPTION #2 - HOUSSE

HOUSSE is the second option by which veteran teachers may demonstrate that they meet Criteria #3 of the federal "Highly Qualified" Teacher definition [content knowledge competency for the teaching assignment(s)].

What is the "High, Objective, Uniform, State Standard of Evaluation" (HOUSSE)?

This is a system by which the state can determine that an experienced teacher meets the subject matter competency requirements in the law. *NCLB* sets criteria for the state to follow when it designs this system for experienced teachers.

The NCLB criteria:

- Are set by the state for grade-appropriate academic subject matter knowledge and teaching skills;
- Are aligned with challenging state academic content and student achievement standards and developed in consultation with core content specialists, teachers, principals and school administrators;
- Provide objective, coherent information about the teacher's attainment of core content knowledge in the academic subjects in which a teacher teaches;
- Are applied uniformly to all teachers in the same academic subject and the same grade level throughout the state;
- Take into consideration, but are not based primarily on, the time a teacher has been teaching the academic subject;
- Are made available to the public upon request.

The law clearly recognizes that teachers who have been in the classroom have a variety of experiences and training, which may demonstrate their competency in the subjects they teach. Therefore, the HOUSSE system may involve multiple, objective measures of teacher competency.

If OPTION #2 is selected:

- **Step 1:** Complete the "Highly Qualified" Teacher Identification Form.
- **Step 2:** Complete the HOUSSE Rubric for each core academic subject assigned to teach. 1

Continued on next page >

Rubric #1: For Elementary (K-8) teachers including self-contained special education.

¹ Teachers complete the rubrics appropriate to teaching assignments.

Rubric #2: For departmentalized middle, junior high, and high school teachers including self-contained special education

Rubric #3: For other K-12 teachers (Alternative education, ESL, Bilingual, foreign language, and visual and performing arts).

- **Step 3:** Achieve a total of 100 points across at least three (3) categories in the rubric. ²
- **Step 4:** Teachers who can document that they meet the "Highly Qualified" definition for all teaching assignments through HOUSSE complete the "Highly Qualified" Statement of Assurance Form with all necessary documentation attached, including the HOUSSE Rubric and worksheets. If you do not achieve 100 points in the HOUSSE, complete the Statement of Assurance Form **AND** attach the "Highly Qualified" Teacher Action Statement Form indicating the action you will take, as outlined in the HOUSSE, to achieve 100 points by August 31, 2006.
- **Step 5:** Complete the "Highly Qualified" Teacher Verification Form when you satisfy the definition of "Highly Qualified" teacher.

² Teachers must provide evidence of content knowledge in at least 3 of the five categories on the rubric:

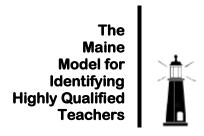

[•] Years of teaching experience in the content area.

Content area college coursework and assessment taken

[•] Professional development related to the content

Service to the content area

Content area awards, recognitions, and scholarship.

FORMS

This packet contains the forms teachers will use to determine whether they satisfy the federal definition of a "Highly Qualified" Teacher for each core academic content area teaching assignment they have. Copy forms as needed.

Detailed instructions have been designed to lead teachers through the process of completing the *Maine* "*Highly Qualified" Teacher* forms and the Maine HOUSSE Standard: Content Knowledge Rubric. These forms are also available on the Department of Education (DOE) web site (http://www.maine.gov/education).

All forms must be completed and submitted to the school principal or district designated "HQT" official by the last day of the 2003-2004 school year (the current school year).

In recognition of the limited time remaining in the school year and to provide sufficient time for teachers to assemble documentation, teachers have until September 1, 2004 to compile and submit documentation necessary to finalize the HOUSSE and verify that they have satisfied the "Highly Qualified" definition. (See HOUSSE Instructions) Teachers completing HOUSSE between April and June 2004 will:

- 1. Complete HOUSSE Rubric and Worksheets.
- **2.** Submit these two documents to LEA "HQT" Official.
- Compile supporting documents between June and September 2004 (if necessary).
- **4.** Re-submit HOUSSE package (Rubric, and Worksheets, with documentation) to LEA "HQT" Official by 9/1/04.

What forms will teachers complete?

Teachers will complete five (5) forms:

A. "Highly Qualified" Teacher Identification Form

All teachers will complete the "Highly Qualified" Teacher Identification form.

B. "Highly Qualified" Teacher Statement of Assurance Form

All teachers complete the Maine "Highly Qualified" Teacher Statement of Assurance Form.

C. "Highly Qualified" Teacher Action Statement Form

Those teachers who are not yet "highly qualified" will complete the *Teacher Action Statement Form.*

D. Plan to Become Fully Certified Form

Teachers who do not hold full certification (e.g., conditional certificates, targeted need certificates, transitional endorsement, or waiver) MUST complete the "Plan to Become a Fully Certified Teacher" Form.

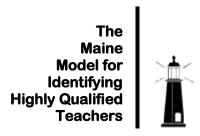

E. "Highly Qualified" Teacher Verification Form

All teachers will complete the "Highly Qualified" Teacher Verification" Form when they satisfy the federal definition of a "Highly Qualified" teacher.

Note: Teachers who choose Option #2 - HOUSSE, also must complete the HOUSSE Rubric and worksheets.

A. THE HIGHLY QUALIFIED" TEACHER IDENTIFICATION FORM

There are three (3) versions of the "Highly Qualified" Teacher Identification form. ALL teachers complete the "Highly Qualified" Teacher Identification form appropriate to their teaching assignment:

Form #1: Teachers of Elementary Education and Elementary Special Education

(self-contained).

Form #2: Teachers of Middle/Secondary and Middle/Secondary Special Education

(Departmentalized).

Form #3: Teachers of K-12 Content Areas, Visual and Performing Arts, Foreign

Language, ESL, Bilingual, and Alternative Education.

NOTE: Teachers with more than one core content area assignment must complete a separate form for **EACH** teaching assignment they have in the current year.

B. THE HIGHLY QUALIFIED" TEACHER STATEMENT OF ASSURANCE FORM

There are two (2) versions of the Maine "Highly Qualified" Teacher Statement of Assurance Form. ALL teachers complete the "Highly Qualified" Teacher Statement of Assurance Form appropriate to their teaching assignment

- 1. Statement of Assurance for Teachers in Title I Schools and Programs.

 This is a form specific to teachers in Title I schools and programs. Record keeping and reporting requirements under NCLB make it necessary to distinguish these teachers from others who are teaching in a given district or a school.
- 2. Statement of Assurance Form for Teachers in Non-Title I Schools and Title I programs.

C. "HIGHLY QUALIFIED" TEACHER ACTION STATEMENT FORM.

<u>ONLY</u> teachers who <u>do not yet</u> satisfy the federal definition of a "Highly Qualified Teacher" complete *the* "*Highly Qualified" Teacher Action Statement Form*.

D. THE PLAN TO BECOME FULLY CERTIFIED FORM.

<u>ONLY</u> teachers who <u>DO NOT HOLD FULL CERTIFICATION</u> (conditional, targeted need, transitional, waiver) complete the *Plan to Become Fully Certified Form*.

E. THE "HIGHLY QUALIFIED" TEACHER VERIFICATION FORM.

ALL teachers must complete the "Highly Qualified" Teacher Verification Form when they have satisfied the federal definition of a ""Highly Qualified" Teacher" for the subject(s) they are assigned to teach.

Who must complete the "Highly Qualified" Teacher Identification Form?

- All teachers working in elementary schools (K-8) who teach core academic content subjects. This includes all Elementary Generalists who teach all subjects to one group of students throughout the school day.
 - Note: Pre-K teachers are exempt from meeting the "Highly Qualified" teacher requirement.
- All specialists (K-12) teaching a core academic content.
- All teachers working in middle and secondary schools who teach one or more core academic content subjects. This includes middle school teachers teaching core academic subjects in departmentalized settings under elementary certificates.

The
Maine
Model for
Identifying
Highly Qualified
Teachers

The core academic content areas are:

- Elementary (English, Reading, Language Arts, Mathematics, Science, and Social Studies)
- Language Arts (English, Reading, Language Arts)
- o Science (General, Life, Physical)
- o Social Studies (Economics, History, Civics/Government, Geography)
- Mathematics
- Visual and Performing Arts
- o Foreign Languages
- All special education teachers who provide direct instruction in one or more core
 academic content areas. Special education teachers working in elementary
 settings (including those teaching self-contained classes in grades 6-8) must
 satisfy the definition of a "Highly Qualified" Teacher at the <u>academic level</u> of the
 students. Special Education teachers who work in departmentalized middle and
 secondary schools must satisfy the definition of a "Highly Qualified" Teacher based
 on the <u>grade level(s)</u> of the content/curriculum they teach rather than the
 chronological age of the students.
- All Bilingual and ESL teachers who provide direct instruction in one or more core
 academic content areas. Bilingual and ESL teachers working in departmentalized
 middle and secondary schools must satisfy the federal definition of a "Highly
 Qualified" Teacher based on the grade level(s) of the content/curriculum they
 teach rather than the age of the students.

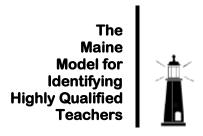

Are any teachers exempt from the "Highly Qualified" requirement?

The following teachers are exempt <u>unless</u> teaching a core academic subject – in which case the teacher must be "Highly Qualified" in that subject.

- Teachers who provide instruction in:
 - o Health and Physical Education
 - o Industrial Technology
 - o Gifted and Talented
 - o Business and Technology
 - Vocational Education
 - o Career Education, Family, Consumer Science and Life Skills (Practical Arts)
- Educational Service Personnel (i.e., speech teachers, guidance counselors, child study team members, librarians, nurses, career educators, vocational teachers, occupational and physical therapists).
- Teachers in private secondary schools that enroll 60% public tuition students ("60% schools")
- Pre-K teachers

A. How does the "Highly Qualified" Teacher Identification Form work?

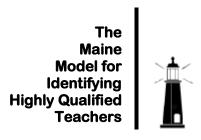

The "Highly Qualified" Teacher Identification Form allows teachers to determine whether they satisfy the federal definition of a "Highly Qualified" Teacher as outlined in the No Child Left Behind legislation.

- Teachers at the elementary level answer two questions about [1] National Board Certification, and [2] passing a state test.
- Teachers at the middle and secondary levels answer five questions (for EACH core academic content area teaching assignment they have) about [1] undergraduate major, [2] coursework equivalent to a major, [3] advanced degrees, [4] National Board Certification, [5] passing a state test.
- Teachers of K-12 content and Visual and Performing Arts; Foreign Language; ESL; Bilingual; and Alternative Education) answer five questions (for EACH core academic content area teaching assignment they have) about [1] undergraduate major, [2] coursework equivalent to a major, [3] advanced degrees, [4] National Board Certification, [5] passing a state test.

Information for Elementary Teachers

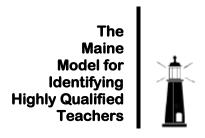

- 1. Did you pass an exam in the content area (Praxis II Elementary Education: Content Knowledge Test)? The Praxis II Elementary Education: Content Knowledge Test is not yet available in Maine and not yet required for certification. The test will be available as an option for "Highly Qualified" teacher status and will be required for certification beginning in September 2005.
- 2. Teachers coming from other states may have had to pass an elementary content knowledge test (Praxis II) to obtain their certification. If you have passed such a test in any other state, you may be asked to attach a copy of your score report to show that you satisfy the federal definition of a "Highly Qualified" teacher.
- **3.** Teachers who answered YES to the question of whether they passed a state test <u>satisfy</u> the <u>federal definition of a "Highly Qualified" Teacher</u>. Those who answered NO to this question and meet the criteria for a veteran teacher may complete the Maine HOUSSE Rubric <u>or</u> opt to take the test when it becomes available.

4. Teachers who have answered YES to the question of whether they hold National Board Certification satisfy the federal definition of a "Highly Qualified" teacher. Those who answered NO to this question and meet the criterion for a veteran teacher may complete the Maine HOUSSE Rubric or may opt to achieve National Board Certification by taking Option #1.

Information for Middle and Secondary Teachers

- 1. Did you pass the Praxis II content knowledge test for the grade level and subject(s) that you teach)? The Praxis II: Content Knowledge tests are not yet available and not yet required for certification. The test will be available as an option both for "HQT" and required for certification beginning in September 2005. Teachers coming from other states may have had to pass a content knowledge test to obtain their certification. If you have passed such a test in any other state, you may be asked to attach a copy of your score report to show that you satisfy the federal definition of a "Highly Qualified" Teacher.
- 2. Do you have an academic major in the content area(s) you teach? The major must match the teaching certificate in order to satisfy the federal definition of a "Highly Qualified" Teacher. Your transcript, on file in your district, serves as documentation. Examples of qualifying degrees/majors include: Bachelor of Arts: English; Bachelor of Science: Chemistry; Bachelor of Arts: History; Bachelor of Fine Arts: Music.
- 3. Do you have 24 college credits in the content area(s) you teach? If your degree reads Bachelor of Arts: Education; or Bachelor of Science: Education; you must review your transcript and count the number of applicable content hours. Teacher education, generic teaching methods and educational psychology courses cannot be counted toward the 24 credit content requirement. Your transcript, on file in your district, services as documentation.

Additional guidance on counting 24 credits:

Middle/Secondary Teachers should identify the content courses and count the number of semester hours appropriate for **each** of the content area(s) they are teaching. If you have 24 or more semester hours in the content area(s) you are teaching, you satisfy the federal definition of a "Highly Qualified" teacher.

K-12 Content, Foreign Language, Visual and Performing Arts, Bilingual Education, ESL, and Alternative Education Teachers who provide direct instruction in one or more core academic content areas as the middle/secondary content level should follow the directions given above for middle/secondary teachers.

Special Education Teachers who provide direct instruction to students with disabilities in one or more core academic content areas at the middle/secondary content level should follow the directions given above for middle/secondary teachers or for elementary teachers.

How to Count Content Courses: Approved Maine programs within the broad content definition (i.e., language arts, science, social studies) usually require content course work in multiple areas. A biology program would probably require a course in chemistry and a course in physics. A history program would require other types of social science courses, such as economics or political science. Courses within the broad definition of the certificate should be counted as appropriate content.

4. Do you have a graduate degree in the content area(s) you teach? If you have an advanced degree (i.e., Master of Arts: History; Master of Science: Biology; Master of Fine Arts: Dance) in the content area aligned with your assignment, you satisfy the federal definition of a "Highly Qualified" Teacher.

If your graduate degree is in education (e.g., Master of Arts: Teaching; Master of Arts: Curriculum and Instruction; or Administration) you may count content-specific coursework in the HOUSSE (Column B). These advanced degrees are not content appropriate as a whole, and will not satisfy the federal definition of a "Highly Qualified" Teacher. However, such education related degrees are recognized in the HOUSSE (Column E). Your transcript, on file in your district, serves as documentation.

5. Do you have National Board certification in the content area of your current teaching assignment?

If you hold National Board Certification in the content you are assigned to teach, you <u>satisfy the federal definition of a "Highly Qualified" teacher</u>.

Information for K-12 Content, Foreign Language, Visual and Performing Arts, Bilingual Education, ESL, and Alternative Education Teachers.

These teachers should refer to the information provided for elementary teachers regarding how to use *the "Highly Qualified" Teacher Identification Form*, and/or the information provided for middle and secondary school teachers. Depending upon your teaching assignment and grade level, either or both of these instruction apply.

For EACH content area teaching assignment: Teachers who answered **YES** to **ANY** of the five questions satisfy the federal definition of a "Highly Qualified" Teacher for that content area assignment. They do not need to complete a Maine HOUSSE Rubric for that content area.

For EACH content area teaching assignment: Teachers who answered **NO to ALL** of the five questions may opt to complete the Maine HOUSSE Rubric. In so doing, they can determine whether they satisfy the definition of a "Highly Qualified" Teacher, for their current content area assignment.

The Maine Model for Identifying Highly Qualified Teachers

B. How does the "Highly Qualified" Teacher Statement of Assurance Form work?

All teachers must complete the "Highly Qualified" Statement of Assurance Form (including those who do not hold full certification). This form is used to record:

- 1. those teachers who meet the federal definition of "HQT" automatically,
- 2. those teachers who meet the "HQT" definition through HOUSSE,
- 3. those teachers who do not yet meet the definition of "HQT" and will need to provide a "Highly Qualified" Teacher Action Statement Form, and
- 4. those teachers who are not yet fully certified and ineligible to be "HQT."

C. How does the "Highly Qualified" Teacher Action Statement Form work?

Any teacher who does not satisfy the federal definition of "Highly Qualified" Teacher will complete a "Highly Qualified" Teacher Action Statement Form. All other forms completed must be attached to this form (Identification and Assurance forms, and, if appropriate, the HOUSSE Rubric and worksheets). The "Highly Qualified" Teacher Action Statement Form outlines the actions the teacher will take in order to become "Highly Qualified" by August 31, 2006.

D. How does the Plan to Become Fully Certified Form work?

Teachers who do not hold full certification will complete the *Plan to Become Fully Certified Form* with the LEA "Highly Qualified Teacher" Official. This Plan should describe how and when the teacher will satisfy certification requirements as identified by the Maine Department of Education, <u>AND</u> outline the support to be provided the teacher by the LEA. Attach the *Statement of Assurance* form to this plan.

The Maine Model for Identifying Highly Qualified Teachers

E. How does the "Highly Qualified" Teacher Verification Form work?

All teachers will complete the "Highly Qualified" Teacher Verification Form upon satisfying the federal definition of "Highly Qualified" Teacher. For some, this will be immediately after completing the "Highly Qualified" Teacher Identification Form. For others, this form will be completed upon satisfying 100 points on HOUSSE, or satisfying the requirements of their "Highly Qualified" Teacher Action Statements.

What are the Requirements for Teachers Teaching on Emergency Certificates?

Teachers who hold a Conditional Certificate, a Targeted Need Certificate, or a Transitional Endorsement, or who are teaching on a Waiver are not eligible to become "Highly Qualified" until full certification (provisional or professional) is acquired.

These teachers must complete **only** the *Statement of Assurance Form* **and** attach the Plan to Become Fully Certified Form, which details the teacher actions to be taken and professional development, mentoring and/or support to be provided by the school district.

NOTE: The NCLB regulations also clarify that a teacher who holds less than full certification (conditional, transitional, or targeted need) AND is participating in an alternative certification program will have a maximum of three years in which to be considered "Highly Qualified" without being in violation of the "Highly Qualified" requirements regarding full certification. This allowance is made ONLY for a teacher in an alternative certification program who is receiving high quality professional development, intensive supervision, and making satisfactory progress toward full certification. Programs may be provided by the school district through the teacher support teams or other school or district mentoring and induction programs or through the University of Maine System Regional Teacher Development Centers or other appropriate alternative certification program approved by the Department of Education. These teachers may be reported as "Highly Qualified" for up to three years if the conditions outlined above are met.

What documentation may be requested by districts to verify that teachers satisfy the definition of a "Highly Qualified" Teacher?

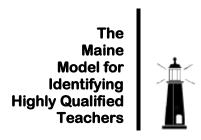

- Copies of college transcripts (need not be official transcripts). These are on file in your school district and/or in your personal file.
- Copies of score reports for state tests (Praxis II)
- Copies of National Board Certificate(s)
- Statements of employment
- Teacher action plans used for certification renewal
- Resumes
- Copies of certificates/endorsements
- Letters of recognition
- Acknowledgements of participation
- Other documents that are acceptable by the LEA

When and how often must I complete these forms?

Teachers of core academic subjects must complete the appropriate Maine "Highly Qualified" Teacher Identification Form(s) once for each core content area teaching assignment. Teachers may need to complete the HOUSSE Rubric annually if they select Option #2 HOUSSE, until they have satisfied the federal definition of a "Highly Qualified" Teacher for each core academic subject teaching assignment. Teachers will need to complete additional forms if they have a change in their teaching assignment(s).

What happens once the forms have been completed?

Gather all completed forms and documentation and review them with the school district "HQT" official. Complete the *Statement of Assurance Form* jointly with the "HQT" official. You should keep a copy of the forms and the documentation for your own records. Return completed forms and copies of documentation along with the signed *Statement of*

Assurance Form and the Verification Form, Action Statement Form, and/or the Plan to Become Fully Certified Form to the "HQT" official. These records will be kept on file at the building or district level and will be subject to the regular state monitoring process. They will be used to compile data about "Highly Qualified" Teachers for district and state reporting purposes as required by NCLB.

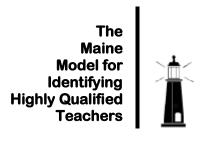

What if my teaching assignment changes next year?

You will need to complete all of the forms again for the new teaching assignment if it is a core academic subject different from the subject you are currently teaching and if it is a subject different from the one for which you previously have been designated as "Highly Qualified."

Does my "Highly Qualified" Teacher designation follow me if I change employment to another school district?

Once you have achieved the "Highly Qualified" Teacher designation for a core academic subject, you remain "Highly Qualified" for that subject if you teach in Maine.

There is no guarantee that another state will accept your Maine "Highly Qualified" status. You may be requested to complete that state's Identification and Assurance forms. Therefore, it is important to keep personal copies of all completed documents and forms including the HOUSSE (if this was your option) and *Action Statement*.

MAINE HOUSSE – GENERAL INSTRUCTIONS

Who must complete the Maine HOUSSE Standard: Content Knowledge Rubric?

Teachers who complete the Maine "Highly Qualified" Teacher Identification Form(s) and do not satisfy the federal definition of a "Highly Qualified" Teacher in one or more core academic content areas for which they have teaching assignments may opt to complete the Maine HOUSSE Rubric. Most likely, the following teachers will need to complete the Maine HOUSSE Rubric:

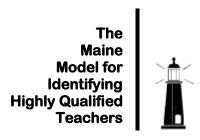

- Elementary and secondary teachers certified prior to 2005 are not required to take a state certification exam (i.e., Praxis II Elementary Education Content Knowledge Test) in order to obtain certification. Elementary teachers who have not passed this test (which will be available as an option in 2005) may opt to obtain National Board Certification, complete the HOUSSE Rubric, or take the test when it becomes available.
- Middle/Secondary teachers who do not satisfy one of the criteria outlined in the federal definition must complete the HOUSSE Rubric to determine which option, Option #1 or Option #2, they will take. Teachers from outside Maine who took a content area licensure exam to obtain certification in another state may present their passing score as evidence that they satisfy the federal definition of a "Highly Qualified" Teacher.
- who are teaching one or more core academic subjects. Middle school teachers who hold elementary certificates may not satisfy the federal definition of a "Highly Qualified" Teacher of core academic content for the upper grades if their training did not include 24 credits in the academic content they are teaching. This is even truer for people teaching multiple content areas (i.e., science and language arts or math and social studies). The Maine HOUSSE Rubric provides an option for middle school teachers to demonstrate that they are "Highly Qualified" to teach middle-level core academic content to students in grades 5-8 or they may opt to take the Praxis II Content Knowledge test when it becomes available.

The Maine Model for Identifying Highly Qualified Teachers

- **Special education teachers.** Special education teachers who provide direct instruction of core academic content must satisfy the federal definition of a "Highly Qualified" Teacher as outlined below:
 - Special education teachers with primary responsibility for direct instruction of core academic content in elementary grades and self-contained classes in middle (5-8) grades must meet the same requirement as the Elementary Generalist.
 - Special education teachers with primary responsibility for direct instruction of core academic content in middle and secondary grades must meet the requirement based on the academic level of the students they are teaching rather than the chronological age of the students. For example, a special education teacher responsible for math instruction for a class of high school students with developmental disabilities who is teaching an elementary-level curriculum could satisfy the federal definition of a "Highly Qualified" Teacher as an Elementary Generalist. If this same teacher also has an assignment to teach algebra to a class of high school students with learning disabilities, he or she must also be qualified at the secondary level in mathematics content in order to satisfy the federal definition of a "Highly Qualified" Teacher. In this case, the teacher would need to be "Highly Qualified" as both an elementary generalist and "Highly Qualified" to teach secondary level mathematics.

Reminder: The Maine HOUSSE Standard provides teachers who do not satisfy the federal definition with an **OPTION** to demonstrate that they are "Highly Qualified" to teach core academic content. Elementary teachers who have passed a state certification test or who hold National Board Certification, and middle/secondary teachers who have met one of the five criteria outlined on the Maine "*Highly Qualified" Teacher Identification Form* do not need to complete a Maine HOUSSE Rubric. They the have satisfied the federal definition of a "Highly Qualified" teacher. K-12 Content, Foreign Language, Visual and Performing Arts, Bilingual Education, ESL, and Alternative Education Teachers who have met one of the five criteria on the Maine "*Highly Qualified" Teacher Identification Form* for their teaching assignment do not need to complete a Maine HOUSSE Rubric. They have satisfied the federal definition of a "Highly Qualified" teacher.

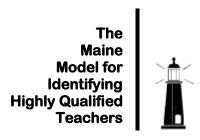

How does the HOUSSE Rubric work?

The HOUSSE Rubric allows teachers to demonstrate content competency in each core academic subject they teach through a variety of options arranged in five categories. The categories are as follows:

- **a.** Years of teaching experience in the content area
- **b.** College level coursework in the content area and content assessments
- **c.** Professional development activities related to the content taught
- **d.** Service to the content area and presentations.
- **e.** Awards, recognition, and scholarship in content area.

How many HOUSSE Rubric forms must I complete?

Teachers who select the HOUSSE option complete one Rubric for **EACH** core academic content area teaching assignment for which they do not meet the federal definition of a "Highly Qualified" Teacher. This is determined by completing a Maine "Highly Qualified" Teacher Identification Form for each core academic area teaching assignment. Elementary generalists and special education teachers who teach all subjects to one group of students during the school day complete **ONE** form.

What happens after I complete the HOUSSE Rubric?

Attach the appropriate documentation and complete the *Statement of Assurance Form*. Your principal or district "HQT" official must review and sign the *Statement of Assurance Form*. Return all forms ("Highly Qualified" Teacher Identification Form and Maine HOUSSE Rubric) to the "HQT" official to be kept on file at the building or district level.

If you document 100 points on the HOUSSE, you must complete the "Highly Qualified" Teacher Verification Form and submit this along with all other forms and the HOUSSE documents. These forms will be subject to the regular state monitoring process and used to compile state-level data for NCLB.

If you have not achieved 100 points on the HOUSSE Rubric, you must complete the "Highly Qualified Teacher Action Statement Form with details describing the actions you will take to achieve 100 points and become "Highly Qualified" by the end of the 2005-2006 school year (August 32, 2006).

Must I complete the HOUSSE Rubric even if I know that I want to do Option #1 to verify my content knowledge competency?

Yes. Treat it as a checklist to identify for yourself the extent of study and professional development that you have acquired over your career that has contributed to your content knowledge for the subject(s) you teach. You may very well <u>easily</u> achieve the standard through HOUSSE. If so, you are "Highly Qualified" and do not need to select Option #1.

APPENDICES

THE MAINE MODEL FOR IDENTIFYING HIGHLY QUALIFIED TEACHERS

Maine State Board of Education Resolution

Adopted: March 10, 2004

WHEREAS, the Maine State Board of Education has authority to establish rules for teacher certification and is committed to enhancing teacher quality in Maine; and

WHEREAS, federal *law* requires implementation of (1) a process by which currently certified teachers can meet the federal "highly qualified" requirement and, (2) for those who do not meet such requirements, implementation of an alternative process by which teachers can demonstrate their subject area competence; and

WHEREAS, the attached *Maine Definition of "Highly Qualified" Teacher* explains who is considered to be "highly qualified" under federal mandates; and

WHEREAS, the Maine State Board of Education wishes to acknowledge the service of its many highly qualified teachers and other school personnel who are dedicated to the education of Maine students.

THEREFORE, BE IT RESOLVED that the Maine State Board of Education approves the Maine Model and confirms that this Maine Model includes the development of a "high objective uniform state standard of evaluation" to be operational not later than August 31, 2006.

NCLB Highly Qualified Teachers and Paraprofessionals Regional Info Meeting Schedule

The Maine Department of Education in cooperation with the Maine School Superintendents' Association, the Maine Education Association, and the University of Maine System Regional Teacher Development Centers will hold regional meetings on the topic of the NCLB Highly Qualified Teacher and Paraprofessional Requirements. One meeting will be held in each of the nine Superintendents' Regions.

All meetings will be held from 4:30 p.m. – 6:00 p.m.

Mid Coast Region

Belfast – April 26, 2004, Hutchinson Center
